

The  
Ohio State

LET'S MAKE LIMA NO. 1 IN EDUCATION

# LIMA BRANCH

Vol. 5 No. 3

MAY 23, 1966

Lima, Ohio

## Phase 1 Building Passes 70 Percent Completion Mark

### Asst. Dean John Stephens Envisions Changes To Come With New Facilities

On October 3, 1966, classes will begin at the Ohio State University in Lima, according to the newly appointed assistant dean of the General University College, J. J. Stephens.

On that day, for the first time, classes will be held during daylight as well as evening hours.

The courses offered will meet the basic requirements of practically all undergraduate college programs. Approximately 75% of the classes will meet between 8 a.m. and 5 p.m.

Where enrollment limits the offering to one section, every attempt is being made to schedule those courses in the late afternoon so that they may be available to the most students.

The inception of the full-day program will bring about many changes in the instructional pattern. Approximately 40 full-time faculty members will be involved.

The courses will be taught in the typical main-campus 48-minute class period. Five-credit hour courses currently taught two nights a week will now be taught five days a week for 48 minutes each. Three - credit courses will be taught in three days.

In the past, it has been very difficult for some students to schedule all courses needed because of the limited flexibility of the 2½-hour instructional block.

The 48-minute class period, will permit students to select their program with more ease.

Not only will the instructional pattern change, but many new services and activities are envisioned. Administrators are currently investigating the possibilities of providing a full orientation program to include scheduling for new freshmen during the summer months.

An assistant director for student affairs will be available in July to develop and coordinate a guidance and counseling program. All faculty members

will act as advisors to the students.

Several colleges are considering the possibility of instituting freshman orientation survey courses. A cultural series to include guest speakers and performing arts groups is being planned.

The new facility will also provide greater opportunities for extra-curricular activities. The student multi-purpose room will serve as a center for students.

Classrooms and possibly some offices will be available for group meetings. Faculty members are being encouraged to participate in organizing new student activity groups.

The recent action of the Board of Trustees placing the branches under the University College will greatly benefit the branch programs.

### Improvement Comes Through Education

By J. McLean Reed

As chairman of the Education Committee in the Lima Area Chamber of Commerce, we wish to emphasize the importance of creating a good climate for learning.

Proper atmosphere will arouse curiosity, accentuate interest, and motivate desire for more knowledge.

It will stimulate youth and adults to participate more enthusiastically in a program of education which will prepare them for fuller, more useful, more purposeful living.

Limaites are recognizing the true value of education as a factor in self-improvement. We hope to initiate a more fruitful climate for learning by acquainting our people with the advantages and opportunities for education that exist here and by showing them sources for information and study.

The project of Phase 1 Building, Lima Campus, the Ohio State University, had progressed to 70% completion, with all contractors on schedule, according to the architect's report, May 12.

"Since last reporting, great strides have taken place in the interior of the building," writes R. J. Pastor of Strong, Strong & Strong, Architects. "All masonry work has been completed.

"The second-, third-, and fourth-floor walls have been painted, vinyl asbestos floors and suspended ceiling systems installed.

"The Penthouse ceiling and stairways have been plastered. Ceramic mosaic tile has been cemented to the toilet-room walls and floors. Terrazzo has been placed and ground in the stairways and part of the first-floor corridor.

"All parts for the elevator are on the job and are being placed. Three truck loads of metal partitions were delivered from Virginia Metal Products and are presently being distributed to the floors for erection.

"The mechanical contractors have also been busy testing lines, insulating, installing ceiling grilles, exhaust fans, and temperature controls.

"The first of the large air-handling houses for the air-conditioning system was erected in the penthouse.

"The electrician unloaded all of the light fixtures and installed them on the third and fourth floors. The underground - entrance, electrical-service cable was pulled into the transformer vault.

"Before the rains started, some work was begun on the exterior site development. The masonry rubble was removed and cleaned up around the building. Footings for the south-terrace retaining wall were poured.

"The underground trenching for light pole conduit was completed across the parking lot." Grading and road work will come soon."

The report concludes: "We will soon be able to name the building by its proper title of Galvin Hall with the erection of the 'stainless steel' letters to be located on the west elevation."

J. J. Stephens, Assistant Dean  
General University College

## A WORD OF APPRECIATION

Ohio State University officials are indeed most grateful for the use of Lima Senior High School in housing the Lima Branch for the past six years. During that time the enrollment increased from 300 to 800 students.

The Director, faculty, and students wish to thank the Board of Education, the High School Principal, and the high school faculty for their cooperation and understanding in the coordination of class schedules and activities.

We sincerely hope our present congenial relations will continue as we move into our new quarters next September.

## FEAR IS A FIFTH COLUMN!

By LeRoy Burnette

In his First Inaugural Address, Franklin Delano Roosevelt stated, "The only thing we have to fear is fear itself." It is as true today as it was March 4, 1933.

Henry David Thoreau related the same philosophy by saying, "Nothing is so much to be feared as fear." It is as true today as it was during Thoreau's lifetime, 1817-1862.

The Bible cautions against fear also. Perhaps the most quoted reference is in the Twenty-Third Psalm: "Yea, though I walk through the valley of the shadow of death, I will fear no evil, for Thou art with me."

Whether we realize it or not, most fears are foolish. The events or happenings which we fear most usually never occur. But fears, or phobias as psychologists prefer, are destructive of our peace-of-mind and put a great burden on our nervous system.

Actually, fear is a fifth column. The military term "Fifth Column" originated during the Spanish Civil War, when four rebel columns were advancing on Madrid.

A general confidently referred to his "Fifth Column" — his militant supporters within the Spanish capital who were intent on undermining resistance from within.

In other words, fear is a ruse similar to the ancient Trojan horse.

Don't let fear rule your life. Of course, it is easy to become fearful while applying for a job, making a speech, taking finals, or doing public tasks requiring lots of time or effort. Again, most fears are foolish. May I give you a personal example.

Once, when I was a patient in a hospital, I had a bad case of insomnia. Late one night or early in the morning, I turned over trying to find a more comfortable position. Facing the door, I was blinded by a bright light. At first, I was confused. Then, I wondered if the light belonged to a burglar and what he wanted in my room.

As the light kept getting closer, it kept getting brighter. What should I do? I didn't want to scream and disturb my roommates, who were unaware of my predicament anyway as they were snoring loudly.

The light passed the first bed. Then, it passed the second bed. It was headed straight for my bed. By now, I was getting panicky. I wondered what I should do or say.

I tried to scream, but not a sound came out. Of course, this episode took only a few seconds, but a person can live a lifetime in just a few seconds. By now, the light was at the foot of my bed.

I glanced about for something to throw at it but there was nothing within reach except the water pitcher. I could see a form silhouetted against the glare from the window. It was solid white.

My fears were beginning to overcome me. I decided to scream when a hand reached out and came closer. I instinctively drew back, as far as I could. The hand hesitated, found the light cord, pulled it.

Immediately, my bed was spotlighted, and the "ghost" was actually a charming friendly nurse. I ashamedly collapsed like a punctured balloon and had no trouble sleeping afterwards.

Charles Abbott

## Assistant Discusses Student Affairs

This article is one which I hope will become the first in a long series of opportunities to contribute to this excellent campus newspaper.

My new position as assistant director for student affairs at the Lima Branch Campus is the most exciting challenge I have ever undertaken.

Any challenge carries with it a great many responsibilities as well as many excellent privileges. I hope to be able to share both the responsibilities and the privileges of establishing a successful student-affairs program on the new college campus with the faculty and students at the Lima Branch Campus.

Many of you will have left the campus by the time I arrive on the scene, but I hope you will continue to communicate with us and to assist us in improving the student-affairs program.

My desire is to become personally acquainted with as many students as possible.

My general assignment for this article was to discuss the responsibilities of my new position. It has occurred to me that students on the campus might be more interested in my personal concept of a good student-affairs program and the ways they may be involved in its operation.

I believe that student affairs on a college or university campus should be defined as including all the services necessary to assist students in solving their many and various programs.

The student services provided through the program should serve several functions.

Some of the most important functions are to assist students in becoming oriented, admitted,

## Many Applicants Seek Positions At Branch

In the recruitment of faculty members for the new Lima Branch, the Off-Campus Education Office, through their contacts with the University Appointment Bureau, obtains well-qualified applicants, many of whom have doctorate degrees.

Others apply voluntarily at the Columbus Off-Campus Education Office and the Lima Branch office.

These candidates are screened and their training and qualifications evaluated at the Off-Campus Office.

They are then sent to Lima for an interview with the Director.

The Director aims:

- to give a true picture of the physical facilities, personnel structure, and the basic curricular and extra-curricular program at the Lima Branch.
- To acquaint them with the many advantages and opportunities here in the cultural and educational areas.
- To appraise them of housing conditions, living costs, and goods and services available.
- To convince them that Lima has many forward-looking people in business, industry, professions, and labor, who will support, encourage, and boost education as the most vital force in the growth and development of the city.

enrolled, and personally adjusted to college life; to provide assistance to students in the achievement of academic success; and to provide leadership opportunities in a variety of student activity programs.

I believe that it is essential for students to be selfgoverned to a large degree as a means of providing realistic preparation for the adult leadership roles which they will assume upon graduation.

This concept will be the guiding principle upon which the student affairs program will be organized.

This year at the Lima Branch Campus will be a most exciting and challenging experience for faculty and students. It will be the privilege of the first few classes to establish traditions and customs which will be followed by future students for many years.

The responsibilities to be assumed at the new Lima Branch Campus by both faculty and students present a formidable challenge. I am looking forward to joining you in making our new campus one of which we can all be very proud.

## Dedication Ceremony and Open House

Dedication exercises for the new Ohio State University Lima Building have been tentatively set for Sunday, Sept. 18, two weeks prior to the opening of the autumn quarter.

It is estimated 5000 people from Lima and the ten county area will be present for the dedication program.

Ceremonies will begin at 3. Ohio State University President Novice Fawcett, Governor James A. Rhodes, and Chancellor John Millet will head the list of distinguished guests.

## Examination Schedule

Tuesday, June 7 — 4-6 p.m.

Chemistry 413

Physics 533

Tuesday, June 7 — 6-8 p.m.

Education 528

## Janice Nichols, Daniel Klopp Reign Over Spring Dance

### Senate Begins Planning For Inevitable Changes

With the advent spring quarter, the Student Senate began plans to meet new situations that will inevitably arise with removal to the new facilities next fall.

The group has been discussing the possibilities of beginning a combination news and literary paper to supplement the existing quarterly newspaper. The Senate desires student opinion.

The Election and Rules committee has drawn up proposed revisions to that portion of the constitution dealing with election procedures. These revisions will be necessary as the enrollment grows and classes move to the new campus.

The Senate has been discussing possible performers to inaugurate a celebrity program, which will be added to the new speakers series started this year.

Several senators met on May 1 with representatives from Newark and Mansfield Branch campuses to consider establishing an inter-branch council.

To begin the spring quarter, on April 5, the Senate sponsored a mixer featuring "The Early Americans."

Together with Alpha Lambda Chi Sorority, Senate members planned the May Day Dance for May 14.

### Calendar For 1966-67 Tentatively Announced

The need for increased social activities on the new Lima Branch Campus is evidenced in an effort to create a normal college atmosphere.

Much has been done during the spring quarter to provide the beginning of such an activity program with the advent of a speaker, concert, baseball personality, and the spring semi-formal dance.

The Student Senate has suggested the following social program for the 1966-67 school year.

Sept.

14 Last day for placement testing

15 Last day to register

29 Last day to pay fees

29 Student book exchange

29-30 Welcome program for new students, Thursday evening and Friday morning.

October

3 Classes begin

7 Speaker

22 Student dance mixer

November

9. Speaker

18 Celebrity program

December

16 Christmas dance

January

3 Classes begin. Student book exchange

5 Student dance

Janice Nichols was crowned Queen and Daniel Klopp, King at the Spring Semi-Formal Dance held at the Elks Club, May 14.

Results of the election, held two weeks prior to the event, were kept secret until the dance. The field had been narrowed to the six candidates pictured above.

The Student Senate and the Alpha Lambda Chi Sorority were co-sponsors. The Swinging Gents, an outstanding area band, played for a capacity crowd.

Labeled the Omikishi Happiness Festival, the dance had a Far Eastern theme. A grass-covered bridge, surrounded by a Japanese garden complete with a fountain, complemented the atmosphere.

Chaperones were Mr. and Mrs. J. McLean Reed, Mr. and Mrs. William DeSteffens, Mr. and Mrs. Richard Ireland, and Miss Mary Beery.

17 Speaker

23-24 Student Senate elections

29 Student skiing party at Valley-High

February

8 Student dance

17 Celebrity program

March

1 Speaker

7 Student dance

27 Classes begin. Student book exchange

## Many Branch Students Rate A and B Averages

Twenty-eight Lima OSU Campus students received perfect grades for the winter quarter, grading is based on the 4.0 point system.

Receiving straight "A" or 4.0 averages were: College of arts and sciences — John Cook Jr., Shirley Geiser, Steven Marsha, Kathleen Hoersten, Diana Ireland, James Kendall, Karolyn Kendall, Wallace Mauer, Carolyn McKinley, Steven Moyer, Joe Patton, and Richard Schelle.

College of commerce — Charles Butts, David Fledderjohan, and Harry Mooney.

College of education — Mary Bockey, Nina Dudgeon, Adrienne Heinrich, Karin Hermiller, Carol Hicks, Carol Lewis, Alice Maier, Martha Marine, Anita Mitasik, Constance Nero, Barbara Shearer, Donald South, and Mary Wilkins.

Students receiving grade averages between 3.0 and 3.9 were: Linda Adams, Richard Atwood, James Ault, Alice Baier, Ronald Barnes, Margaret Bear, Charles Bell, Dennis Berryan.

Ralph Biederman, Barbara Boedicker, James Bohnlein, Diana Bowsher, Robert Brauer, Bonita Brockert, Rebecca Brown, Gary Brunk, Warren Britt, Darlyn Campbell.

Eric Carlson, Hal Cattell, Deirdre Chrismer, Pamela Clark, Marcene Cook, Karen Corderman, Diana Detrick, Harold Dipple, Leonard Downey, Robert Downey, Ruth Downhour, John M. Dugan, Ralph Fuhrman.

Yvonne Fuller, James Garmhausen, Philip Gerstner, Howard Gratz, Sharon Harriman, Delphine Herzog, Larry Hicks, Terry Hill, Mary Frances Johnson, Dean Jones, Jackie Jordan.

Jacqueline Kellogg, Frederick Kelsven, Martha Kessleer, Daniel Klopp, Marilyn Klotz, Kevin King, Maryann Kriegel, Karen Lenhart, Donald Lesondak, Linda Little, Helen Long, Jean Lucke, Walter Lynn, Steven Mauer.

Larry McFadden, Richard McGraw, Judith Morris, Marshall Moser, Carlyle Mossman, John Mueller, Joseph Murphy, Verleen Neer, Russell Parker, John Pauff, Winnie Pickering, Alice Pierce, Sandra Pierson, Tom Pitney.

Gregory Pepple, Donald Plummer, Larry Prueter, Paula Purdy, Paul Reed, Sandra Reese, Paul Riggle, Randall Ringwald, Teddy Robinson, Edward Rohrbach, Roberta Roffee.

David Ruff, Jan Rutter, David

(Middle front) Merle Wortman, (left middle) Douglas Ambrose, (right middle) Denny Polter, Roger Hornung, (rear) Michael Cramer, Steven Niebel, James Baker, Lynn Bandy, and David Fledderjohann. (Picture courtesy Lima News)

## Circle "K" Sets June 7 for Charter Party

June 7 is the tentative date set for the Circle "K" Charter Party, which will be included in the noon club luncheon of the Lima Kiwanis.

Kiwanis will install the officers of the Circle "K" and present them with their charter.

Lynn Bandy and Dennis Polter attended the Saturday session of the annual Circle "K" State Convention in Delaware, March 26 and 27. They attended workshops in which the delegates discussed programs and projects.

Sarchet, James Searfoss, Arthur Seggerson, George Schecklehoff, Michael Shalter, Karen Shoup, Charles Smith, Jerry Smith, Mary Smith, Janet Soders, Lvera Sprague.

Ruby Sproul, Rebecca Staley, Richard Stepleton, Roger Stokes, Max Stover, Linda Tabler, Nancy Thorburn, Joseph Tor-diff, John Travers, Norman Vondran, Aart Vuyk, Luther Walls.

Vivian Walter, J. Tobias Walters, Herbert Weber, Betty Weller, Eunice Wickersham, Ned Wilson, James Winklejohn, Michael Woolf, Linda Worrell, Judith Yazel, and Barry Zwiebel.

On April 16, the Club assisted the Allen County Cancer Society by canvassing the downtown area of Lima, distributing literature and taking donations.

The latest club project is the distribution of novels to be used by all 418 English classes.

## Students Hear Story of Waite Hoyt Career

Waite Hoyt, popular baseball personality, entertained the Lima Branch college students Monday evening, May 16, in the high school auditorium.

Mr. Hoyt related interesting incidents in the life of a ball player.

For the second time this quarter, the Lima Branch students were privileged to hear an outstanding personality in their chosen field of endeavor.

The third spring quarter assembly will feature the famous Hughes String Quartet from Ohio State University on May 23 in the Lima Senior High School auditorium.

The Quartet, organized in 1955, is composed of artist members of the Ohio State University School of Music.

## Reorganization Brings Personnel Changes

Transfer of administrative responsibility for two - year branch programs from the Office of Academic Affairs to the Dean of the newly created University College effective July 1 was approved May 12 by the Ohio State University Board of Trustees.

Included in the action was the transfer of Dr. John J. Stephens III, assistant dean of off-campus education in the Office of Academic Affairs, to assistant dean of the University College.

Dr. Dennis D. Bell, director of the Lakewood Branch Campus, was appointed assistant dean in the University College and coordinator of off-campus branches.

In his new position, Dr. Stephens will have responsibility principally in the areas of budget and physical facility matters.

Dr. Bell, who joined the Ohio State staff in 1963 as research assistant and assistant instructor in the former Bureau of Educational Research and Service, will work primarily with off-campus programs.
